<sup>1</sup>Cash-on-Cash Return is calculated by dividing "Capital Returned to UTIMCO" by "Capital Invested."

<sup>2</sup> IRR, or Internal Rate of Return is an annual return on a partnership investment calculated by a complex mathematical formula which considers the timing and size of irregular flows of capital invested and returned to UTIMCO and the General Partner's or UTIMCO's assessment of the value of the remaining investments. Returns for periods of less than one year are not annualized. IRRs are based on capital invested and returned to UTIMCO through August 31, 2006 and the General Partners' or UTIMCO's assessment of the current value of remaining investments as of June 30, 2006. IRRs for periods of less than one year are nominalized, not annualized.

"Capital Invested" may exceed "Commitment" amounts due to the recall of previously distributed capital or other capitalized expenditures.
